Continuing Health Insurance Coverage

MainePERS Members Planning to Retire or Applying for Disability Benefits

The Maine Public Employees Retirement System (MainePERS) does not administer any health insurance benefits and is, therefore, not able to address questions about members, retirees or beneficiaries health insurance.

If you are not sure about what health insurance benefits you may have when you retire, when you apply for disability,* or when you become eligible for survivor benefits, please contact your employer's personnel or business office or your union/professional organization to find out more about what health insurance benefits you may be eligible to receive.

* In order to avoid either lapses in insurance coverage or the possible loss of any coverage, please be sure to learn how your health insurance coverage works before terminating employment or going off your employer's payroll.
